TAMMANY SCUMPT OF TRIUMPH

Orders Are Issued to Celebrate a Victory
FUSIONISTS COUNT ON A PLURALITY
Election Contests Will Be Held Today in Many States

NEW YORK, Nov. 2.—With every indication of a close struggle tomorrow, one of the battle lines the leaders of fusion and Tammany laid in their predictions of overwhelming triumph. So confident is Charles F. Murphy in his estimate of 100,000 plurality for McCellan, based on the reports of his district leaders, that tonight he published orders to go ahead with the preparations for a rousing celebration of the victory. The estimate of John J. Delaney, McCellan's personal campaign manager, places the plurality at \$5,000, being 75,000 in Manhattan and the Bronx, 50,000 in Brooklyn, 100,000 in Queens and 100,000 in Richmond.

While abating nothing in confidence, the Fusionist leaders claim no more than 25,000 plurality for Low, although it is said that their closest estimates point to a majority of about half that figure. The Fusionists plan their faith in victory on their ability to carry Brooklyn by at least 25,000, which, with estimated pluralities of 2000 in Bronx and 300 in Richmond and a drawn battle in Queens, will suffice handsomely to effect the conceded plurality of 12,000 for McCellan in Manhattan.

Not to lag behind the other combatants in confidence, William A. Devery announces that he expects to poll not less than 40 per cent of the total registered vote. Devery was quite confident when Police Commissioner Greene consented to have his returns telephoned to headquarters with those of Low and McCellan, instead of being sent in by messenger with those of the rest of the field. Considerable interest attaches to the size of the vote that Devery will control, and it may have a serious influence on the results.

The usual reports of "colonization" on a large scale are still industriously circulated, and the campaign of State Superintendent Morgan to check illegal voting, which was continued today by the summoning of several hundred voters to headquarters to testify to hundreds of cases of illegal registration has been the most complete inquisition undertaken in the history of the city. No less than 3000 suspicious cases have been investigated out of a total registration of 425,000, and it is probable that many arrests will be made tomorrow when every polling place will be under the close scrutiny of the superintendent's deputies, who with the assistance of the strongest force of watchers ever placed at the polls, organized by the Citizens' Union, will see that these precautions it is predicted that illegal voting will be reduced to a minimum. Tammany made its final preparations for the struggle tonight by the distribution of alms of war to the amount of between \$10,000 and \$20,000.

CHINA APPEAL FOR REDUCTION OF TARIFFS

Secretary Hay Fails to Find a Way
RATIFICATION OF TREATY AWAITED
State Department Will Then Insist on Rights

WASHINGTON, Nov. 2.—Sir Chen Tsung-ling, Chinese minister here, acting under instructions from his government at Peking, has been particularly active recently in the effort to interest the United States government in China's behalf in her Manchurian troubles. He was at the state department in pursuance of that object, the direct purpose being to see if any way can be found by which the United States government may be able to serve China in this emergency. It appears, however, that Secretary Hay has not been enabled to hit upon any plan of action that would promise to serve China in this manner. There is no question that the events reported to have happened at Mukden regarding the re-occupation of that town are not looked upon with friendly eyes by the United States government, and it is not drawn into the political complications of the present situation.

Immediately after his visit to the state department Sir Lian called to Peking the Chinese minister here to discuss the appeal for assistance. The Chinese authorities are aware by this time that until the ratification of the American-Chinese treaty, which was signed on October 8, pledging to the world the opening of Mukden and Anzhou, will be impossible for this government, in view of its traditional policy of steering clear of foreign affairs to protest against Russia's continued occupation of Manchuria. It has been pointed out to China that, although a member of the United States is here, the time for American interference has not yet come. It is expected that the commercial treaty, which should arrive at Washington this week, will be ratified at the extra session of congress, when the United States will be prepared to insist on a strict regard for her treaty rights throughout China. The Peking government has been told that infringing rights in Manchuria will furnish the Washington government with an opportunity for at least an expression of its desire for the preservation of the integrity of China.

TEEBER RECENT REDUCTION OF TARIFFS

Rumors of Another Battle With the Redskins
SEVERAL HUNDRED MEN IN PURSUIT
Marandors Number Less Than One Hundred Braves

DENVER, Nov. 2.—Five hundred men, including sheriff posse, augmented by volunteers from ranches adjacent, are searching the country in the vicinity of Lightning creek, in eastern Wyoming, in search of a band of Indians which fought a battle with Sheriff Miller's posse Saturday afternoon, killing the sheriff and one deputy named Fosenburg.

The latest advice are to the effect that a second battle has been fought in which ten Indians were killed and eleven captured, but this has not been verified.

News from the scene of the trouble, which is twenty-five miles from the town of Cheyenne, is meager. The Indians, seventy-five in number, said to be under the leadership of Charlie-Carrier-Eik, are supposed to be on a visit to the Pine Ridge and Rosebud agencies in South Dakota. They have been hunting in the Converse country, Wyoming, in violation of the game laws of the state. Sheriff Miller with a posse went to the scene of their depredations last Saturday for the purpose of arresting the Indians. The Indians had received warning of the coming of the whites and prepared an ambush for them. The posse would have been entirely wiped out but for the fact that the members proceeded cautiously and in a measure were prepared for some trick on the part of the Indians.

Warmbad is a mission station in Great Namaqualand, South Africa, about 135 miles east of the mouth and twenty-five miles north of the Orange river. The German consul at Cape Town confirms the rumor of a native rebellion in Damaraaland, a country of Southwest Africa, forming a part of the German possessions there.
