Level of students: Primary 6 of upper level (24 students in total)

Number of lessons: One double lesson (80 min in total)

Topic: Alice in Wonderland

Target vocabulary items: “look”, “see” and “watch”

Corpus Used: COCA (Corpus of Contemporary American English)

Learning objectives:

By the end of the lesson, students will be able to:

1. Distinguish the difference in the definition of “look”, “see” and “watch”.
2. Apply the words of “look”, “see” and “watch” in practice.

3. Use the corpus (COCA) and AI tools to support self-directed and inductive learning.

Lesson Progression (T for teacher, Ss for students)

STAGE 1: Testing Ss' knowledge and raising Ss' awareness (15 min)

Assuming that Ss have finished reading the book *Alice in Wonderland* in the last lesson. In this lesson, T first asks Ss to work individually to complete an exercise about Alice and the rabbit, the characters in the book, to test their understandings of “look”, “see” and “watch”. Ss are asked to work in pairs to explore the definitions of target words with the help of ChatGPT.

STAGE 2: Hands-on corpus search and inductive discovery by Ss (25-30 min)

In part 1, Ss are guided by the teacher to search with COCA for authentic examples of the verb “see” in the “fiction” session since *Alice in Wonderland* is also a fiction, and Ss are familiar with this genre. Next, they need to circle the nouns or pronouns after “see” in the concordance lines to summarize its usage.

In part 2, Ss form groups of four. Ss are asked to search “look” with COCA by themselves. Then, Ss circle the nouns after the verbs and summarize the usages. After analyzing, Ss are required to fill in the blanks or choose the correct words in the definition part.

In part 3, Ss work individually. After being guided by T and working in groups, they are now ready to search on their own. Ss search “watch” with COCA, read the underlined concordance lines and find out the definition.

In part 4, they will be asked to fill the summary chart without referring to the previous parts to recall the whole framework of knowledge. Finally, T and Ss check the answers in Stage 1.

STAGE 3: Application and output (30-40 min)

Now Ss need to apply them in practice. Preceded with a matching exercise, there are also 3 sessions for Ss to practice using the linguistic items in reading, and writing. With the help of AI tools: Twee for picture description, Grammarly for automated writing assessment.

STAGE 4: Homework

Ss are given a worksheet that is suitable for their own level. Each worksheet will have a different task. For the easiest worksheet, Ss are only asked to play an online game to consolidate the definition of the three words. Then after watching a video clip of *Around the World in 80 Days*, they need to fill in the blanks with the correct use of “look”, “see” and “watch”. For the intermediate students, they are asked to compose 3 complete sentences using these three words with the AI tool Twee; for the students of the highest level, they are asked to write a paragraph to talk about what Mr. Foggs will see in today’s Hong Kong using target language items and use Grammarly to revise their writing. Also, they are encouraged to use the corpus to search for other phrases with “look” after class and get the meaning with the help of ChatGPT in order to cultivate Ss’ ability to utilize corpus in their self-study. Ss are also encouraged to do one or more worksheets if they feel comfortable and confident. This stage is designed to provide Ss with additional practice.

STAGE 1: Testing Ss’ knowledge and raising Ss’ awareness

We read the book *Alice in Wonderland* last week. Today, let’s read some parts and finish the tasks. <https://fliphtml5.com/xxcfy/tlzk>

Activity1: Filling in the blanks [Individual work]

Do you remember the two characters Alice and Bunny? They are talking to each other right now. Read their conversations and fill in the blanks with “see”, “look” and “watch”.

Oh no! I fell into a rabbit hole! It is so dark. I can't _____ anything. Am I _____ a horror movie?

Don't worry. _____, over there! There's a door.

Alice: I _____ it too! But I was so scared so I _____ the entrance for a long time and I didn't go inside.

Rabbit: Be brave and hurry up! _____ at my watch and don't be late!

Part 2: Working with your partner [Pair work]

Work in pairs. Take turns reading your own work and see if there is any difference in answers. Then, ask **ChatGPT on Poe** about the definitions of “see”, “look” and “watch”, and write down some keywords or sentences.

Notice: The teacher can provide some **simple prompts** to ask ChatGPT like:

1. Can you explain the differences among “see”, “watch” and “look at” in words **for primary school students**?
2. Can you use **simple words** to explain the differences among “see”, “watch” and “look at”?
3. Explain the verbs: “see”, “look at” and “watch” **for P6 students**.

ChatGPT Poe

Sure! Here are simple definitions of the words "see," "look," and "watch":

1. See: When you see something, it means that you use your eyes to notice or perceive things around you. It's the ability to detect objects, people, or events by using your sense of sight.
2. Look: Looking refers to directing your eyes towards a specific thing or in a particular direction. It's an intentional act of focusing your gaze on something to observe or examine it.
3. Watch: Watching involves paying attention to an action or an event that is happening. It typically involves looking at something for a period of time, like observing a movie, a game, or a live performance.

To summarize:

- See is about using your eyes to notice things.
- Look is about intentionally directing your gaze towards something.
- Watch is about observing an action or event for a period of time.

Activity 1: As Alice walked on the path, she met Mad Hatter and the Red Queen. Let's complete their conversations with "see", "look" and "watch".

Alice: Can you _____ the cat over there?

Mad Hatter: No. Where is it?

Alice: _____! it's over there.

Mad Hatter: Oh, it's The Cheshire Cat.

The Red Queen: Croquet game is so much fun! When I go back to the castle, I like to _____ a croquet match.

The White Queen: Okay, but do you want to _____ at the stars with me tonight?

The Red Queen: No. I don't want to. I don't want to _____ you tonight.

The White Queen: Alright. I'll go back to my home.

Activity 2: Alice continued to walk and saw many interesting things. Let's describe the pictures with "see", "look" and "watch" first, then compare your sentences with that generated by AI tool Twee and try to improve your sentences.

Notice: Please register the AI tool before the class.

Teacher tip:

This AI tool is used to spark students' ideas in picture description since Twee will create a list of sentences with the vocabulary provided. Students are still supposed to modify and improve their sentences with target verbs.

Example: Try to follow these steps and finish the activity.

Your answer:

Step 1: write down your sentences.

Sample answer:

Alice saw a butterfly in the forest.

There was a cat in Alice's arm.

Now let's try to compare and improve your sentences with the help of AI tool Twee.
