

Eligible Program Review

This table is based on the Hexagon Tool (Blase, et al. 2013b)

5 point rating scale: Team members can individually rate each area on a 1 to 5 scale, where 1 indicates a low level of feasibility, 3 a moderate level and 5 indicates a high level for the factor. Midpoints can be used and scored as a 2 or 4.

Activity	High	Medium	Low
Review and discuss "eligible" programs and practices in relation to:			
Need in agency, community province, state			
Human, health service and socially significant issues			
Community perception of need			
Data indicating need			
Fit with, and impact on, current initiatives			
Agency, community, province, state priorities
